

# CRITICAL INFORMATION SUMMARY

## TPG FTTH L BUNDLE

### Service Description

Fibre to the Home (FTTH) is a broadband service that is delivered using fibre optic that has been installed directly to the network boundary point of individual premises.

TPG FTTH L Bundle includes the following components:

- Unlimited FTTH Broadband
- Voice Service:
  - Unlimited Local Calls (excl. 13/1300 calls)
  - Unlimited Standard National Calls to Landlines
  - Unlimited calls to Standard Australian Mobiles
  - 100 International Minutes per month

The service is a pre-paid service and bills are not issued. A monthly invoice will be generated for your records that can be accessed by logging into Your Account online at [www.tpg.com.au/account](http://www.tpg.com.au/account).

### Availability

Only available in selected buildings. To check for availability, please use the address checker at [www.tpg.com.au/ftth](http://www.tpg.com.au/ftth)

### Bundling Arrangements

Once an FTTH Bundle is purchased, you cannot cancel either component (FTTH or Voice Service). Cancellation will cease both services.

### \*FTTH Speeds

Actual throughput speeds may be slower and could vary due to various factors including interference, download source, customer cabling and equipment. The L Bundle has an upload connection speed of up to 20Mbps.

### Equipment Required

You need an FTTH compatible modem to connect your devices to the FTTH Broadband service. A compatible 4 Port Wi-Fi Modem Router is included in FTTH Bundle plans. \$10 Delivery fee applies, as outlined in the Pricing table above. You will need to supply your own standard compatible phone handset to use your included voice service.

### \*Prepayment For Previous Service

If you are changing plans or moving home and your existing phone number can be transferred to your new TPG FTTH service, we will transfer across

### Prepayment

A minimum \$20 prepayment ('Prepayment') is required at registration and will be used for calls outside of the included value for your service.

Calls Outside the Included Value made using the FTTH L Bundle service will be charged on a 'Pay As You Go' basis and deducted from your Prepayment. The Prepayment amount will be automatically topped up (debited from your nominated bank account or credit card) when it falls below \$10. By acquiring and continuing to use the service, you agree to an automatic top up of your Prepayment (as required). Prepayment is non-refundable and will be forfeited if not used when you cancel your service.

### Minimum Term

FTTH Bundle plans are supplied on a no lock-in contract. Customers are permitted to terminate the service by giving 30 days notice. See Minimum Total Cost applicable in the Information about Pricing section.

any amount you have prepaid on your previous service and you will not be charged a \$20 Prepayment upon sign up. If you are unable to keep your existing phone number and must receive a new phone number with your new TPG FTTH service, you will be charged a \$20 Prepayment upon sign up and any prepayments on your previous service will be credited.

### Inclusions & Exclusions

**Included Calls:** FTTH L Bundle allows you to make unlimited Local Calls (excluding 13/1300 numbers), unlimited Standard National Calls to Landlines and unlimited calls to Standard Australian Mobiles. Calls to 19/1900 numbers are not supported. The 100 International Minutes per month included in bundle can be used to call International Landline and Mobile destinations (excluding calls to satellite phones) listed on our [International Call Rates](#) page. Standard per minute rates listed on our [International Call Rates](#) page apply after the first 100 minutes of International Calls and for calls to satellite phones. Unused included minutes for international calls expire at the end of each month. Charges for calls made that are not included in the bundle (e.g. calls to 13/1300 and Directory Services) will be charged at [listed TPG rates](#) by deducting usage charges from your Prepayment. The service is for residential consumers only and may not be used for commercial purposes

**CSG Waiver:** The standard Monthly Charge and Setup pricing stated in the Information about Pricing section are based on new customers agreeing to waive the Customer Service Guarantee (CSG).

### Call Rates

Usage Type	Rates
Local Calls (calls to landlines within the same area code)	Unlimited
National Calls to Landlines	Unlimited
Calls to Standard Australian Mobiles	Unlimited
2 Minute Call to Standard Australian Mobile	\$1.17 (including call connection)
International Calls	- First 100 minutes free - Standard International call rates apply thereafter (plus 39¢ call connection) - See <a href="http://www.tpg.com.au/ftth/international-callrates">http://www.tpg.com.au/ftth/international-callrates</a>
18/1800 Calls	Free
13/1300 Calls	30¢ per call
19/1900 Calls	Not supported
Directory Assistance – 1223	\$1.10 per call
TPG 13 14 23	Free

### Network Boundary Point:

TPG will supply every customer with a Wi-Fi Modem to get connected with the FTTH service. Customers are required to pay a \$10 standard delivery fee, as outlined in the Pricing table. An Optical Network Terminal (ONT) is pre-installed at the customer's

premises. If an FTTB installer is required to attend your premises, you or an authorised person over the age of 18 must be home on the day of installation. We will advise you of the date and time of the installation appointment. You should receive the modem within 2-5 working

days after it has been dispatched from our warehouse. TPG's responsibility and demarcation point is the LAN1 port on the ONT. TPG is not responsible for any cabling beyond that point.

### Special Note:

TPG Voice Service is delivered using voice over Internet Protocol (VoIP). The Voice Service supports fax to national numbers in the Telstra, Optus, AAPT and Primus PSTN network. Fax to international numbers is not reliable and VoIP based fax is not supported. This plan does not support the Priority Assistance Scheme. The Voice Service does not support old dial up technology devices with built in modems such as EFTPOS, Back to Base Alarms and Foxtel Program purchase. These devices have been replaced by Internet Protocol (IP) enabled devices and many TPG customers are able to use EFTPOS, Back to Base alarms and Foxtel Program purchase through the internet provided that their devices are IP enabled. For further details on IP enabled devices contact your device supplier. TPG Voice Service also does not support analogue modems, Priority Assistance Scheme, calls to 19/1900, 0500 numbers and Universal International Freephone Numbers (UIFN). The Voice Service requires a broadband connection and power to the Wi-Fi modem router supplied by TPG and to the network equipment in your building. If there is a broadband connection outage in your premises or your building due to power or other faults, the Voice Service will not work and you cannot make phone calls including "000" emergency calls.

## Other Information

### Usage Information

You can monitor your Broadband and Voice Service usage by logging into Your Account online at [www.tpg.com.au/account](http://www.tpg.com.au/account).

### Customer Support
